

## Qualified ExpressCard/34 Media

There are various manufacturers of ExpressCard/34 media, however not all of the media available is suitable for use with Ki Pro. The following ExpressCard/34 media has been tested and is qualified for use with Ki Pro when using version 3.0 firmware or later to record up to Apple ProRes 422 (Apple ProRes 422 (HQ) recording is not supported by ExpressCard/34 media):

Vendor & Model	Informational URL
<b>Wintec</b> FileMate SolidGO ExpressCard Ultra SSD 96GB (3FMS4D096JM-R - 96GB)	<a href="http://www.wintecind.com/features/FileMate/SSD/Express_Card.html">http://www.wintecind.com/features/FileMate/SSD/Express_Card.html</a>

Please make a careful note of the specific ExpressCard/34 media listed above.

Using non-qualified ExpressCard/34 media with the AJA Ki Pro is strongly discouraged. Using non-qualified ExpressCard/34 media may result in dropped frame warnings, media mounting issues or other problems.
