ZOOM SERVO DRIVE

designed for

Zeiss LWZ.3 21-100mm / T2.9-3.9 T

www.chrosziel.com

Chrosziel
... the cinematographer's choice

Zoom Servo Drive

Single unit mounted onto lens

Three captive screws keeping the single servo drive unit permanently fixed onto lens.

Controlled via SONY FS & LANC handgrip

The Sony FS5 / FS7 handgrip zoom rocker controls directly the servo drive unit. Other zoom rockers with LANC protocol are compatible too, e.g. mounted to handgrip.

Camera control signals forwarded

Control commands are immediately looped through to the camera (e.g. menu / user buttons / focus magnification / camera run & stop).
